

ADDENDUM NO. 3

REQUEST FOR TENDER (RFT)

CSIRORFT2026019 - GROUND MAINTENANCE SERVICES FOR CSIRO MANAGED SITES VIC METRO

This Addendum is issued on 6 August 2026 by CSIRO in response to clarification questions. CSIRO accepts no responsibility if a Tenderer fails to become aware of any alteration, correction or notice, which would have been apparent from a visit to the AusTender website or from other information available from the CSIRO Contact Officer.

Please email any questions in relation to this RFT to the CSIRO Contact Officer at:

EMAIL	CSIRORFT2026019@CSIRO.au
RFT CLOSING TIME AND DATE	2:00pm (Local ACT time) on 17 August 2026

CLARIFICATION QUESTIONS	
Q1	Are there any storage areas on site for small/ medium equipment and/ or larger equipment, including mowers?
A1	CSIRO have temporary storage on site in Clayton only. Other sites like Werribee and Aspendale, do not have storage.
Q2	Can CSIRO provide measured areas (turf, garden beds, hardstand) or site plans for each location?
A2	Unfortunately, we do not provide such measurements.
Q3	Does cleaning of roadways, paths and carparks require periodic jet washing?
A3	No. Jet washing is only required on an ad hoc basis. CSIRO expect roadway and carpark cleaning to be done by road sweeper or of similar nature.
Q4	In the event that removal of dead limbs from trees requires a road closure, will CSIRO be responsible for arranging this with the relevant local authority?
A4	No, the Contractor will be responsible for arranging with local authority. CSIRO will be responsible for the communication with staff members on site.

CLARIFICATION QUESTIONS	
Q5	In relation to Addendum No. 1 regarding mulch costs. The response states that the Contractor shall pay for the mulch, but also notes that the Contractor "may then pass on the cost to CSIRO." Could CSIRO please confirm whether the intent is that CSIRO ultimately bears the cost of mulch (with the Contractor procuring and invoicing it, with or without a mark-up per Draft Contract schedule 2, clause 2.2), or whether the Contractor is expected to absorb this cost within its tendered pricing? Clayton's estimated usage is 20m³/quarter, which reads like an included routine service item rather than an ad hoc item. Should mulch supply/install be priced as a fixed recurring line item in the base Pricing Tables, or purely as a rate under the reactive Schedule of Rates?
A5	In regard to the supply of mulch, the Contractor is required to include the cost of delivery and spreading the mulch in the garden bed as part of their Tender pricing. However, if the mulches are generated locally (i.e. from mulching tree branches/ trunks) the Contractor should provide an hourly rate to spread the mulch. Mulch supply should be a fixed recurring line item.
