

ADDENDUM NOTICE [1]

PROJECT REF #PROCFY26078

Communications as of 24 July 2026:

Q#.	QUESTION	ANSWER
1.	Regarding the Scope of Requirements for a <i>"highly experienced EMC with a proven, verifiable history of delivering high-profile, complex B2B and luxury trade events within the North American market"</i> : If a tenderer possesses extensive global experience delivering large-scale tradeshow, but their specific North American experience is primarily in delivering complex conferences and incentive programmes, will this satisfy the requirement?	The tenderer experience as described would meet TA's requirements for this RFT.
2.	Scope of Requirements - Does this RFP go to North American based EMCs?	The RFT has been advertised to North American EMCs.
3.	Scope of Requirements - From 2022 onwards, has TA ever used an Australian based EMC to help produce any Australia Marketplace North America events?	The question is outside the scope of the RFT procurement.
4.	Australia Marketplace North America (September 2027 and September 2029) - Is there any available breakdown for accommodation of single vs shared vs twin rooms? Is there a reason for a total of 250 delegates but only 225 rooms requested?	No specific breakdown of room options. Total room requirement is set to cover anticipated accommodation needs based on prior Marketplace events.

5.	Australia Marketplace North America (September 2027 and September 2029) - For the destination for 2029, are you just after a destination recommendation or do you require three hotel options within the destination, as per 2027?	The listing of three venue options is required for AMNA 2027 only. For AMNA 2029, only an outline of how the tenderer would approach sourcing for the undetermined US destination is required.
6.	Australia Marketplace North America (September 2027 and September 2029) - Is the prospectus for the Gold Sponsor (USD \$20K to \$30K) a per year amount for 2027 and 2029?	The prospectus amount for the Gold Sponsor is for the 2027 AMNA event only.
7.	Signature Experience Luxury Showcase (January to June 2028) - Are we to suggest the two other cities apart from NYC that we recommend for this roadshow?	Only the New York venue submission is required for evaluation. Tenderers can suggest additional city locations as part of their overall submission.
8.	Signature Experience Luxury Showcase (January to June 2028) - Can you give some indication of timings, e.g one city every 2 months between January and June, or are timings open to our interpretation?	The Luxury showcase events will be held consecutively over an approximately 2-week period. The timing for when the NYC event is held within the Jan-June 2029 timeframe is at the tenderer's recommendation.
9.	Signature Experience Luxury Showcase (January to June 2028) - Are we required to manage freight services from city to city of all event collateral?	Yes. Based on previous Luxury showcases, though, there have been minimal freight shipment requirements and generally limited to signage, small decor items, and collateral.
10.	Signature Experience Luxury Showcase (January to June 2028) - Are we to manage flights for TA hosts to each city?	No.
11.	Business Events Australia North American Showcase (July 2028) - If we are to suggest the city for this event, the brief is very broad - <i>Propose a strategic program format, ideal event dates, recommended city location, and a specific venue that best serves the target audience.</i> – We know the target audience are corporate and incentive buyers, but what type? Luxury? Groups? Leisure travel? Executive travel? Study trips?	The target audience will be North America based incentive buyers. We will be targeting 3 rd party meeting planners who represent incentive houses and independent companies booking incentive programs. Some of these planners will be booking executive trips and larger groups.
12.	Business Events Australia North American Showcase (July 2028) - Has this specific event been held before, and if so, where?	This single-city Business Events Showcase event is a new format and would replace a previous multi-city roadshow format.
